

# IRC Measurement

Competitors in the IRC measured classes are reminded that it is very much in their own interest to ensure that their boats measure in.

To facilitate this, the IRC measurers will be available on Friday (PM), Saturday and Sunday before racing begins.

Skippers should contact the measurer beforehand on  
Mobile: **062 623 5260**.

Indicatively, boats should have their largest area headsail and spinnaker check measured, as well as any other new sail likely to affect their rating.

Random check measuring will be done during the week.

If in any doubt, contact the measurer.

Malcolm Runnalls
